

Finance & Accounting Outsourcing for Restaurant Industry

Machine Learning, AI & Cloud Flavoured Finance & Accounting Solutions

RECIPE FOR INCREASED EFFICIENCY & UPSIZED PROFITABILITY

In a modern market where the restaurant operators are operating under incredibly thin profit margins & bloated competition, any means to bring down the operating cost & improve performance is deemed a blessing. If it can help uplift the customer experience and the service quality, it is a blessing indeed. At Datamatics Business Solutions Ltd. (DBSL), we strive to deliver restaurant owners just what they need.

We have a suite of high-quality finance and accounting solutions, which blends our years of specialization, knowledge, and technological acumen while remaining unmatched in the restaurant industry. We cater to multi-location restaurants, franchises, small restaurants, cafes, and food trucks alike. Our best-in-class talent pool, paired with advanced technologies like Robotics, Artificial Intelligence, Machine Learning, Cognitive Computing, and Cloud, creates a human-machine collaboration to deliver solutions to your business requirements seamlessly.

THE FINANCE & ACCOUNTING CHALLENGES FOR RESTAURANT INDUSTRY

The restaurant industry presents unique accounting challenges that need focused attention from the accounting experts, allowing you to focus on strategic business objectives.

Some of the significant accounting challenges we have identified for the restaurant industry have been –

Inability to devote time to manage accounting

Irregularities within Inventory, Sales Management Etc.

Issues with timely and accurate payment to vendors

Problems with managing utility payments

Multiple locations and different accounting practice

Poor Reconciliation Process

Challenges with managing Cash and unable to identify thefts.

We have positioned ourselves to tackle these concerns while striking a balance between precision, pace, price, & processes.

OUR SERVICES

SOFTWARE TOOLS AND PROFICIENCY

OPERATIONAL WORKFLOW

CASE STUDY – RESTAURANT

ABOUT THE CLIENT

Our client is a major QSR (Quick Service Restaurant) with 200+ locations across the United States of America.

BUSINESS CHALLENGES

Operating multiple locations spread across the USA presents its own set of accounting challenges. Each of those challenges makes it hard for finance leaders to keep up with the business goals.

Some of the challenges we identified were –

- Multiple locations and different practices were followed
- Delay in payment to vendor leading to increased dissatisfaction
- Delay in the reconciliation of daily cash transactions
- Manual Process leading to delay in managing inventory, sales, Etc.
- Incorrect financial statements and hence no clarity in financial performance

THE SOLUTION OFFERED

Upon identifying the challenges, our experts devised finance & accounting solutions that addressed their financial difficulties to perfection.

The solution addressed –

- Timely processing of invoices and disbursement of payment to vendors
- Define Process of Vendor Management
- Implement workflow tools to automate invoices and sales processing
- Effective tracking and payment of utility bills
- Streamline the accounting process across units to ensure best practice is followed
- Clear backlog and assuring availability of workforce as required
- Accurate and timely preparation of financial statements

THE BUSINESS GAINS

Leveraging our finance & accounting expertise paired with the state-of-the-art technologies, we were able to deliver –

- Significant improvement in vendor payments and process controls
- Automation of Process leading to improved efficiency
- Ability to focus on customers and growth
- Improve business and scale affordably
- Mitigate the risk of loss due to thefts
- Improved security in transactions as well as accounting functions
- Accurate financial statements to provide the current situation
- Timely and accurate financial reporting

COMBINING EXPERIENCE, SCALE AND TECHNOLOGY

Datamatics has been examined and audited specifically for all its service lines in accordance with the GAP Analysis and DPIA, to confirm that the controls are suitably designed to meet the requirements of GDPR. Datamatics has also achieved SOC 1 Type I (Financial Accounting, Tax and Payroll Services) – Attestation Standards SSAE 18.

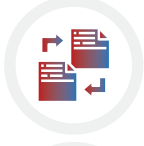

Websense DLP (Data Loss Prevention) – to prevent potential data leakage intentionally or unintentionally and to monitor, block data flowing through various channels like Email, Web, LAN etc.

Websense Proxy – for controlling internet access

Disk Encryption Software – McAfee file folder encryption to encrypt every bit of data that goes on a disk or disk volume and to protect information by converting it into unreadable code that cannot be deciphered easily by unauthorised people.

Secure File Transfer Protocol (SFTP) – to transfer files to remote system in a secure way and to control data in transit.

Two Factor Authentication on SFTP by enabling One-Time Password (OTP) functionality

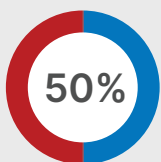

Isolation of Network Zones for the processes falling under GDPR.
